Hotel Concept

Concept Story

Even now, Shiba area of Tokyo is where the atmosphere of Edo still exists. Shiba Park Hotel is a good old hotel that has spelled out history in a way that breathes into the traditions and culture of this area. The hotel retains its comfort, but has the face of a “Library Hotel” with a new collection of books centered on the climate, people, and history of the city. We at Shiba Park Hotel aim to be a hotel where history and culture are spelled out over time and lead to a better and more prosperous tomorrow.

Hotel with 1,500 books in collection

Library Lounge 1st floor

The selection lets you feel the spirit and history of hospitality developed uniquely at Shiba Park Hotel.

“Shiba” was passed down from Edo to Tokyo, then to the modern Tokyo. Important things have been passed down through generations.

We prepared bookshelves that do not fade even after all the years.

Central staircase 1st-2nd floor

In the Edo period, it was the place where the school dormitory of Zojoji Temple was located, and while inheriting the feelings (DNA) of the land and valuing "universal beauty," we will create a better and more prosperous future that is modern and sustainable.

It is a space that expresses the "past," "present," and "future." There is a large bookshelf with a height of about 7m installed around the stairs that go up from the first floor to the banquet floor. You can also pick up a book while go up the stairs.

Foyer -Book & Culture- 2nd floor

You can learn about the city, history and historical background, and see the time from Shiba Park Hotel was born to the present time. We have selected books that will give you hints for thinking about the direction you should take from now on, based on the past and present.

Simple KINTSUGI experience

“New beauty” created by taking good care of things
KINTSUGI experience

KINTSUGI is a traditional Japanese restoration technique in which broken, chipped, cracked or otherwise damaged areas of ceramics and porcelain are glued together with lacquer and decorated with gold or other metal powder. A “new beauty” is created by taking good care of objects that Japan has nurtured since ancient times. Guests can easily experience traditional KINTSUGI using simple modern repair techniques.

We have requested supervision from Kamakura-Bori Niyodo Mr. Kenyu Mitsuhashi, who is involved in various efforts to pass on the lacquerware culture to the next generation, and our hotel staff acquired KINTSUGI instructor certification.

Brass powder and substitute gold-etching powder will be used instead of gold powder. In addition, no real lacquer is used. Instead, synthetic lacquer (URUSHI), glue, and putty are used in this modern repair technique.
